You can only add a Close this Window button, and not receive a warning message, if the window is created with JavaScript:

Close window:

```
<a href="javascript:void(0);" onclick="window.close();">Close This Window</a>
```

--

```

> I'm using FrontPage 2002 - I have windows that open up on top of the other ones and I want to h  
a "Close Window" button on the bottom of the window. I already have my hover button on the page,  
just don't know how to make it close when I click it...any help?
