How do I back up or copy all my new website from one computer to another ?

FP 2003 wont allow me to copy or transfer the website.  
Only individual files.

How can I copy all the website.  
When I try it comes up with an error when I try to open the files on my  
laptop...eg extensions missing.

I have followed Jim Buyens instructions in his FP 2003 Inside out  
manual...to no avail.

NZed
