Hi IronMan,

You can disable those by right clicking their icons
in your system tray (next to the time on your taskbar).

| I have problems when I try to install directx 9.0b. I read
| in one post earlier that disabling firewalls and
| antiviruses will help to not corrupt the installation
| process. I would appreciate if somebody could tell me how
| to disable firewalls and antiviruses or further help me in
| installing directx 9.0b run-time for Halo on PC. I am sure
| that my comp specs qualify the standards. Thanks for your
| help.
