Respected Seniors,

I have a problem with ISA Server, the problem is that, when user checking mails on yahoo by using any client PC, then user cannot delete mails from mailbox and also have not able to send the mail from compose option.

This error occurs only in yahoo account. Didn't have any problem other mailboxes like hotmail and others;

When user want to delete mail from mailbox then delete button not responding and same problem with send button by using compose option.

Plz send me the solutions on my email ([talk2kashi@hotmail.com](mailto:talk2kashi@hotmail.com)) of this stupid problem

Waiting your response,

Thanks and regards,

Rizwan
