yes
in the actual web pages is "exception error" in "cmd.execute"
then get the same error in "cmd.activeconnection=cnx"

...but listen please (this is going me mad)
i cant describe exactlye the error now
because everything works OK now: believe me
but im not happy because
earlier this morning was ok too:
i execute the web site pages now and works well....

i dont know how much time
the sql go to be stable
.... perhaps, after a while, a will
