Ok I made that change and now I get this error message in my browser.

Error Type:

Microsoft OLE DB Provider for ODBC Drivers (0x80040E14)

[Microsoft][ODBC SQL Server Driver][SQL Server]Line 1: Incorrect syntax near '='.

/ben/bam3.asp, line 14

Ben

Server object, ASP 0177 (0x800401F3)
Invalid class string

```
Set objConn = Server.CreateObject("ODBC.Connection")
```

I don't know of a class called "ODBC". You need to replace "ODBC" with "adodb" in this and the other CreateObject lines that follow.

```
objConn.Open "DSN=AsureIDc51Test", "xx", "xxxxx" β username and  
password removed for security
```

Don't use ODBC if you have the choice:
