There is a log parser available (free) from Microsoft. You can query the IIS logs like a database:

<http://www.microsoft.com/downloads/details.aspx?displaylang=en&familyid=8cde4028-e247-45be-bab9-ac851fc16>

There are other tools available try looking for "IIS Log Tool" on Google:

<http://www.google.com/search?hl=en&ie=UTF-8&oe=UTF-8&q=IIS+Log+Tool>

```
