You want user isolation. Specifically, AD User Isolation mode. The reason it exists is to do what you want done.

Maybe look at:

HOW TO: Set Up an FTP Server in Windows Server 2003

<http://support.microsoft.com/default.aspx?scid=kb:en-us:323384>

How To Set Up an FTP Site So That Users Log Onto Their Folders:

<http://support.microsoft.com/default.aspx?scid=kb:EN-US:201771>

HOW TO: Create a Secure FTP Directory that Uses Password Authentication:

<http://support.microsoft.com/?id=239120>
