Hi Fred,

I checked on this and it looks like the HotFix for 2003 will not work with 2000. We do have a HotFix for 2000, but you'll still need to open a HotFix case (which is free) with Microsoft Support.

Thanks,

Kyle Terns, MCSO [MSFT]
Developer Support - IIS

| Thank you Kyle,
| I obtained this hotfix but it is for Windows 2003.
| I have a 2000 Advanced Server. Can you verify if this fix will still work
| for me?
| I have two executables, probably one dll or ocx and symbols. No notes or
| install instructions at all.

| Regards,
| Fred
