You didn't list the Appname. I'm going to guess that is IEXPLORE.

A possibility for this error include:

Various Error Messages Displayed and Slow Windows Performance When Virtual Memory Is Enabled

Some other possibilities:

Dealing with Unwanted Spyware, Parasites, Toolbars and Search Engines

Use the following newsgroup for questions or problems with IE6

<news://msnews.microsoft.com/microsoft.public.windows.inetexplorer.ie6.browser>

You can also get to the Internet Explorer newsgroups via this web site:

<http://support.microsoft.com/newsgroups/default.aspx>

There select Internet Applications then Internet Explorer
