Hi,

I've just reactivated a msn account because it was not used it for 30 days.

But... i lose some important information as emails activation account with their password.

I tried to send a request to the Hotmail Staff Team, but i received each time this message "Thank you for sending an e-mail message to [staff@xxxxxxxxxxxx](mailto:staff@xxxxxxxxxxxx) However, this is not a monitored e-mail address."

Also, is it possible to retrieve all them?

Best Regards,

Cédric.
