Version: 2008

Operating System: Mac OS X 10.5 (Leopard)

Processor: Intel

Email Client: imap

I just installed the 12.1.2 update and Entourage will not open the attachments. I sent message to myself and I obtained following message:

"file\_name uses a file type that is blocked from opening in this version."

There is not possible to open the downloaded file by clicking Open on the File menu

.
