Hello Alexandre,

Can you please try the workaround at

<http://groups.google.com/group/microsoft.public.mac.office.powerpoint/msg/49b6ced3febad32f?>

and reply as to whether this works for you. Also, are you running on and Intel-based Mac?

Thanks,  
Andrew

Another user reports that the following from MS fixed the same problem:

First make sure no MS Office apps are running,

In your User's Library:Preferences folder delete the file:

com.microsoft.powerpoint.plist

Empty the Trash & restart PPT.

Let us know how you make out.
