I'm having some problems with Keyboard Viewer in word; whenever I change my input language, the keyboard viewer only shows English. I

Re: Keyboard Viewer in word 2004

can still type in the language, but the keys don't show up on the keyboard viewer. I've tried a couple of different languages and get the same thing. Any ideas? Thanks!

I'm having the same problem – and apparently so have Mac users since at least 2005! The only way around it I have found is to have no other program open – no Safari, no Mail, no Excel, only Word. Hope this provides some relief!
