Whenever I try to upgrade per auto-update, the MS server is always (2 months) busy. When I go to a MS download page and try to download, neither Safari or Firefox can download MS upgrades that start "download.microsoft...." There must be some way around this. I'm using Safari 2.0.4 and Tiger on a PowerPC G5. Thanks for your help! tpdungan

And you expect Microsoft Update to work with a Mac browser because?????
