You should just need to go to WMP's Tools:Options:File Types menu and reassociate the types to WMP there.

If QuickTime is blocking you from setting this, you'd need to turn off whatever evil settings in QuickTime are having them retain that file type.

<http://www.zachd.com/pss/pss.html#assoc>
may help a little further.

Good luck,

-Zach

(speaking for myself and doing this in my free time)
See <http://www.zachd.com/pss/pss.html> for some helpful WMP info.
