Hi Anger,

Where is this option to allow the screen saver to activate during playback if listening to music. Mine is coming on while watching a video stream in Media Player and it wasn't before. I believe something might have changed.

Please let me know!
Thanks,
Roger

This option to Allow Screen Saver during playback is nice if I'm listening to music but if I'm watching a movie I don't want my screen saver to start. I don't know if this is the right way of going about this but maybe someone out there might know someone who can get this changed or modified to exclude the screensaver during the playing of movies and allowing it during music. I am

Re: Screen Saver During Playback

using Windows Media Player Version: 10.00.00.4036.
