-

Venkat and I talked about this and he thinks this was sourced from an old bad IE QFE that left a corrupted Exception Component...?

Suhail investigated this and believes the following should fix you up:

===

Run Regedit.exe and browse to the following key:

HKEY_LOCAL_MACHINE\SOFTWARE\Microsoft\Windows\CurrentVersion\Setup\ExceptionComponents

Delete all the subkeys under the above key that have FriendlyName as "Windows Media Files".

==

Then reinstall the player – does that fix you up?

--

Windows Media Development Team (speaking for myself only)

"grrrrrrr" <grrrrrrr@xxxxxxxxxxxxxxxxxxxxxxxx> wrote in message <news:EFCDB79E-0FCA-4CC6-8916-A74742A47452@xxxxxxxxxxxxxxxx>

I am having the same error message that windows cannot complete the setup.

Here is my error log.

Thank you in advance zachd.

I had to remove some of the successful parts of the log to make it fit.
