Hi

Thanks for your quickly reply!
Here is my test code for your reference.
[VBA Macro]
Sub MyTestMacro()
Dim oVB6 As New TestVBA.CallVBAObj
Dim oVBA As New MyVBAClass
oVB6.TestCallVBA oVBA
End Sub
[VBA Class]
Public Function Test() As String
Test = "Hello"
End Function

[VB6 Class]
Public Sub TestCallVBA(obj As Object)
MsgBox obj.Test
End Sub

Best regards,

Peter Huang
