Dave Guy <[Dave...@xxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxx](mailto:Dave...@xxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxx)> wrote...

I have been running MS Office 2007 for about a month now, all of the sudden my Microsoft Office Button is not functioning. I can get around the printing, but the Save As function is gone. Any ideas would be greatly appreciated.

You can work around save as by pressing [F12], which brings up the Save As dialog in Word and Excel at least. If it doesn't work for PPT, well at least that'd be so many fewer presentations in the world.
