Hi,

Can anyone help me. I bought a Lenovo F21 laptop in China and of course the Windows Vista Home Premium is in chinese characters which i do not know how to read it. The F21 in asian version is the Y200 of lenovo now I tried installing a windows vista home premium in english version has failed so many times. It keeps on flashing a blue screen which says memory dumping etc... Can anyone help me in installing an english language pack in my chinese windows vista home premium?
