

Re: Office 2007 beta fails to uninstall

||
||| Then I tried installing the trial version Patrick suggested and
||| then I got this error:
||
||| "Setup is unable to proceed due to the following error(s):
||| The 2007 Microsoft Office system does not support upgrading from a
||| prerelease version of the 2007 Microsoft Office system. You must
||| first uninstall any prerelease versions of the 2007 Microsoft
||| Office system products and associated technologies.
||| Correct the issue(s) listed above and re-run setup."
||
||| I have to figure out a way to uninstall the MS Office Beta before I
||| can do anything else...
||
||| Do you have any suggestions?

| Hi,
|
| I am trying to uninstall Microsoft Office Professional 2007 Beta but
| when I click on uninstall, it says "Product installation has been
| corrupted. Run installation again from CD/DVD or other installation
| source."
|
| I also downloaded and installed the Beta Technical refresh. I need to
| get rid of both of these.
|
| Please help!!!
