Hi there I'm new here but having a difficult time in locating the Venn Diagram, consisted of three overlap circles used for business and Accounting. Right now I am a student at one of the local Universiting and out Instructor would like for all students to do a Power point Presentation. Since I'm a Computer Information Tech major, I just can not get this Venn Diagram position correctly in one of the Presentation . Could any one directed me to the correct version of the Venn Diagram or have any suggestions on cut and paste transfer?
