I want to place some RTF text in the body of a MailItem (RTF format)during the open event. I am trying to use the Redemption API to access and write to the RTFBody.

The change is not showing in the Message user interface. The message is blank. How can I get RTF text to show in the UI?

```
Dim mySafeMail As Redemption.SafeMailItem
Set mySafeMail = CreateObject("Redemption.SafeMailItem")
mySafeMail.item = myMailItem
myMailItem.Save

mySafeMail.RTFBody = mySafeMail.RTFBody & myRTFText
```

thanks
Mike
