Try this for Windows 2000 (you would need to contact microsoft product support and request the package)

<http://support.microsoft.com/?kbid=254458>

As for using WMS from a Win98 cd on 2000, it might work. However in looking at <http://support.microsoft.com/?kbid=258211>, it looks like you would still need to acquire 2 files from a NT4 CD.

First link (254458) has a link to a Windows XP support article. Again, it would be hit or miss to know if this would work.
