I cannot use F9), problem seems if I am sending out emails – will not synchronize sent items, I get this error message.?

This is the Error Message:

Task 'Microsoft Exchange Server – Sending' reported error (0x8004011D) : 'The server is not available.

Please advise any suggestions

>When I open Outlook 2000 I get the following error message.

>

>

>

>"An extension failed to initialize. Can't open file:

C . The file may not

>exist, you may not have permission to open it, or it may be open in another

>program. Right-click the folder that contains the file, and then click

>Properties to check your permissions for the folder.

You don't have

>appropriate permission to perform this

operation." Now this is

>weird! It tells me what to do and then tells me I don't have permission to

>perform this operation???? I'm the only one on the computer! HOW DO I

>SOLVE THIS PROBLEM?

>

>

>

> I am given a choice of one. I can click on OK. When I do then I get: "An

>error occurred in the shortcuts file (.fav). Outlook

will recreate the

>default folder shortcuts. The folder shortcuts file is not valid" WOW!!!

>Talk about gobble-d-gook!

>

>

>

>When I click on OK again I get: "Outlook could not save the updated folder

>shortcut information. Check to make sure there is sufficient disk space and

>that the file "C: \Documents and Settings\Jack\Local Settings\Application

>Data\Microsoft\Ou.," is not marked read-only. Another attempt to save will

>be made after the next change or when you exit. You don't have appropriate

>permission to perform this operation." THIS IS REALLY GETTING FRUSTRATING.
