Hello,

In order to sync a Windows Mobile device with Vista you need to install Windows Mobile Device Center.

<http://www.microsoft.com/windowsmobile/devicecenter.mspx>

I am at a complete loss...can I or can't I sync my 4155 with Vista.

If I can...can you please tell me what I need to have loaded on my PC and what I need to load on my 4155...program and version. I never had a problem with xp pro.

Thank you.
