Hello,

After looking for hours and hours, I still don't know where I can find Windows Mobile 5 (for O2 XDA III)?

Can I download it somewhere? Can I buy/upgrade it somewhere?

If you want to contact me, you can always do at [frank\\_bottin@xxxxxxxxxxxxx](mailto:frank_bottin@xxxxxxxxxxxxx)

Most surely a stupid question, but can somebody help me?

Thxxx!  
Frank.
