

Treo 700w / Hotmail / Verizon Wireless Sync

I'd like to wirelessly sync all my Hotmail E-mails, Calendar, Contact, Tasks, and Notes on my Treo 700w, but the Verizon Wireless Sync software seems to only do POP accounts with Outlook 2003. Is this right? I'm using Outlook Connector and that's working fine, I even used ActiveSync for a while but since MS took the sync'ing over-the-network function out, I'm abandoning that. Pocket MSN only does e-mail, but not the other databases...

Thanks in advance!
