RadioCategorizer(c) – Published : 12-02-2008 – 02:42:01

This program allows you to radio categorys and a list of radio stations from the [www.Live-Radio.net](http://www.Live-Radio.net) website. For each station you enter the [www.Live-Radio.net](http://www.Live-Radio.net) code and when you want to hear the station tap to play.

RadioSyncer(c) – Published : 12-02-2008 – 02:42:01

This program allows you to enter or select a genre or country and then syncs the radio stations with the [www.Live-Radio.net](http://www.Live-Radio.net) website into a database. Tap on the feed to tune it in. This service provided by Brian Buckley.

FamilyFTPed(c) – Published : 12-03-2008 – 03:01:16

This program allows you to share files with family members via a secure remote FTP server. You can create family last name categories and a list of names for each. Each person has a folder on a FTP server with the Family name and the persons name as the subfolder.

FoldersFTPed(c) – Published : 12-03-2008 – 03:01:16

This program allows you to select a folder on your PocketPC storage RAM or storage card and allows you to send ALL of the files in the folder to the FTP server. The program also has a full service FTP file manager. NOTE: Use the FTP manager to select the folder first.

CalculatorGPSed(c) – Published : 12-04-2008 – 04:50:14

This program is a GPS distance calculator and location finder. You can use the GPS or custom entry on your PocketPC to view and download GPS marked satellite camera pictures and calculates distance between two points specified by the latitude/longitude using "The Vincenty inverse formula for ellipsoids." (accuracy to within 0.5mm, or 0.000015")

CalendarGPSed(c) – Published : 12-04-2008 – 04:50:14

This program uses the GPS network to find the UTC date and time and displays it on a calendar interface. You can customize the times via decimal numbers for under 1 hour. The time offsets are saved to a file.

FilesCSVed(c) – Published : 12-05-2008 – 05:04:02

This program creates a CSV file report of the files and the nested folders on a remote FTP server. Select 'Create Report' from the toolbar to create a text report of all of the files on the FTP server and all nested subfolders.

FilesSearcher(c) – Published : 12-05-2008 – 05:04:02

This program searches the current folder and all nested subfolders on a FTP server for a file name. The program then creates a report of the files that match the search parameters. Tap on the file to download it from the FTP server.

BattleShoveler(c) – Published : 12-06-2008 – 04:02:37

The object of this game is to shoot the snow ball at the computer player before he hits you with his. You get 100 points and next round each time you hit him. Free man every round after five.

BattleThawer(c) – Published : 12-06-2008 – 04:02:37

The object of this game is to shoot the snow ball past the thawing ice and hit the computer player before he hits you with his. You get 100 points and next round each time you hit him. Free man every round after five.

BattleDumpsters(c) – Published : 12-07-2008 – 05:09:08

The object of this game is to shoot the snow ball past the moving dumpsters and hit the computer player before he hits you with his. You get 100 points and next round each time you hit him. Free man every round after five.

BattleScorchers(c) – Published : 12-07-2008 – 05:09:08

The object of this game is to shoot the snowball at the 6 computer players before they hit you. You get 10 points and next round each time you hit one of them. You get 100 points and next round when you knock out all 6 of them. Free man every round after five.

RadioEmailer(c) – Published : 12-08-2008 – 03:46:35

This program is a quick way of sending a Radio ASX or PLS media link file via email attachment. You can browse the folders on the PocketPC for ASX and PLS files. Tap on the file to send the stream URL via email.

RadioSearcher(c) – Published : 12-08-2008 – 03:46:35

This program allows you to enter a radio station call sign and searches the www.Live-Radio.net website for the stream(s) you can tune in. This service

provided by Brian Buckley.
