Well, as the FAQ says, if the preview is OK you must look outside Project.
Have you installed the latest printer driver?

Project 2007 SP1, Print Preview displays as expected. FAQ 44 no help.
Print to HP hardcopy or .pdf with Acrobat 8 yeilds same result. Tested on
3
different PCs with same Project installed – all results the same.
Horizontal
lines still missing from bar style.

Hi rdamphou,

Welcome to the Microsoft Project newsgroup :-)

What does it look like in the Preview screen? Which version of Project
are
you using? Please see FAQ Item: 44. Printing Problems

FAQs, companion products and other useful Project information can be seen
at
this web address: <http://project.mvps.org/faqs.htm>

Hope this helps – please let us know how you get on:-)

A bar style of vertical lines with horiz line top & bottom
displays
correct
but prints only the vertical lines.
