Hi Kim, it is good to hear from you. Thank you very much for your post

I've run both command and an "rundll32 wbemupgd, CheckWMISetup" did nothing and after runing rundll32 wbemupgd, RepairWMISetup in the mofcomp.log I got same error.

Do you have any other idea? I've run out of the options thinking about reinstalling the server

Have you tried:
rundll32 wbemupgd, CheckWMISetup
Or
rundll32 wbemupgd, RepairWMISetup

I can't connect to SMS database from local or remote Admin console.

Systems Management Server Version: 2.50.3174.1000

Windows 2003 with SP1

I've went through all articles that I could found with no resolution.
Some articles that I went through.

<http://support.microsoft.com/?kbid=201126>
<http://www.microsoft.com/technet/prodtechnol/sms/sms2003/techfaq/tfaq02.msp#EMHAC>
