Hello,

Thank you for using newsgroup!

First Thanks to Steve for his key in. it's greatly appreciated!

I agreed with Steve, at this point, the best way to diagnose your problem is check SMS log files. You have finished many tests, I believed there are enough information in the log file. You can send the files in %windir%\system32\ccm\logs\ folder on client computers to my email: v-secai@xxxxxxxxxxxxx, I'll check out what's going on.

Sincerely,

Sean Cai
