> account test\Administrator (0000052e)

Error 0x52e translates to Windows network error 1326 – "Unknown username or bad password".

Please doublecheck the password for the push account that you have provided. Also try the following to see if you can manually connect to the admin\$ share on the target machine

```
net use \\MachineName\admin$ /u:TEST\Administrator <password>
```

Thanks.
