

Re: SMS Client problem

Source: <http://www.tech-archive.net/Archive/SMS/microsoft.public.sms.setup/2004-04/0240.html>

From: Chriss3 (*noSpamHere_at_chrisse.se*)

Date: 04/20/04

Date: Wed, 21 Apr 2004 00:24:01 +0200

The COM+ Event System failed to create an instance of the subscriber {C2F23AE4-82D8-456F-A4AF-A2655D8CA726}. StandardCreateInstance returned HRESULT 8000401A.

Only shows up on the DCs so far.

I got this information.

"This is a known bug with the advanced client. You must contact Microsoft and request the hot fix. You need to reference article KB289650 to get it. I ran into the same thing an I am currently distributing the patch."

if you are there any local service I can contact, I'm from Sweden, thanks.
