Hello,

You could try the following statements:

```
sp_configure 'remote proc trans', 1  
reconfigure with override
```

Per your question, network DTC is only available to install in Win2003. In Win2000, it is enabled by default. You could try to reinstall MSDTC to test the situation

```
c:\winnt\system32\dtcsetup.exe
```

Also, please check in event log to see if there is any related errors.

Best Regards,
