Hi Joe,

Thanks for the mail.

Some thoughts:

1. Modified the package protection level to EncryptSensitiveWithPassword
- 2, Try to use Control Panel – Add/Remove Programs and removed the workstation components for SQL Server 2005 and then install it again.

Best regards,

Vincent Xu

"Vincent Xu [MSFT]" wrote:

Hi Joe,

Regarding the SSIS logging,  
you can refer to :

- Managing and Deploying  
SQL Server Integration  
Services: Microsoft

TechNet

SQL Server TechCenter  
<http://www.microsoft.com/technet/prodtechnol/sql/2005/mngngsis.msp>

The thing I ask for is the  
section:

About the exec subsystem  
command and output  
information

in KB 918760

Thanks.

Hi  
Joe,

Sorry  
to  
hear  
that.

So  
far,  
you  
can  
check  
following  
article:

An  
SSIS  
package  
does  
not  
run  
when  
you  
call  
the  
SSIS  
package

from a

SQL

Server  
Agent  
job  
step  
<http://support.micros>

Let  
me  
know  
the  
results.
