Dear Vishal,

Thank you for your help. Not being a whiz at building queries for DBs it took me a long time to build the original query for Oracle. Trying to find the corresponding statements for MS SQL was taking me a very long time. You have helped me plenty.

Thanks again,

Dylan.

>--if due_Date is integer

>AND convert(datetime, cast(due_date as char(8)))

between '19000101' and '20050101'

>--and trunc(mod(due_date,1E4)*1E-2) between 1 and 12 CAN

BE CHANGED TO

>and round(((due_date % 10000) * .01),0,1) between 1 and

12

>-- and mod(due_date,1E2) between 1 and 31)x CAN BE

Re: Number to Date.

CHANGED TO

>and (due_date % 100) between 1 and 31)x
>--to_date(&p_custom_date,'DDMMYYYY') - x.due_date > 60
>--above clause can be changed as follows, assuming you
are looking for difference in two dates
>in terms of number of days.
>where datediff(dd,@p_custom_date , x.due_date) > 60
>order by acct_code
>
>
>dylan,
>as you must have realized that,you can not straight away
put the query that is working in
>oracle into sql server. simply because the functions
like trunc/mod and other expressions like
>1E4/1E2 can not be accepted by sql server as it is. I've
tried giving you closest possible
>answer. Try referring to following url which will be
more helpful to you.
