Try query as follows:

```
delete a
from #cartype a join
(select manufacturer, datemade, count(*) cnt
from #cartype
group by manufacturer, datemade
having count(*) > 1) b on a.manufacturer = b.manufacturer and
a.datemade = b.datemade and b.cnt <>
(select count(*)
from #cartype x
group by manufacturer
having x.manufacturer = b.manufacturer)
```
