I am receiving the following error message when producing this field as part of a select statement in a stored procedure. Can anyone help me fix it.

Incorrect syntax near 'dateadd'.

```
dateadd(d,7*CONVERT(int,LEFT(CONVERT(decimal(4,1),DATEDIFF(dd,GETDATE(),'20030208')/7),2)), '20030208')
as TestDate
```
