Thanks Paul,

Jenny

>-----Original Message-----

>Jenny,

>if you want an alternative owner to dbo for the article

>then enter the table article properties and on the

general

>tab you can specify the owner. If this is not entered the

>object will be created by the sql agent, which as it is

>usually in the sysadmin role, will map to dbo in the

>subscriber database. Once you've changed the owner, the

>distribution agent will error if the user doesn't already

>exist in the subscriber database. If this is the case

then

>a pre-script can be used to add it.
