Just add another subscriber using the wizard or sp\_addsubscription. The snapshot will be sent to Client B automatically.

Looking for a SQL Server replication book?

<http://www.nwsu.com/0974973602.html>

Looking for a FAQ on Indexing Services/SQL FTS

<http://www.indexserverfaq.com>

"Samuel Shulman" <[samuel.shulman@xxxxxxxxxxxx](mailto:samuel.shulman@xxxxxxxxxxxx)> wrote in message  
[news:OMZb2rZ4GHA.2208@xxxxxxxxxxxxxxxxxxxxxxxxxxxx](mailto:news:OMZb2rZ4GHA.2208@xxxxxxxxxxxxxxxxxxxxxxxxxxxx)

Assuming that there is an exiting replication in place between ServerA and ClientA (subscriber) and now I want to add another subscriber ClientB

How do I go about that

Should I just copy the database from the serverA and add a subscription to ClientB or I have to do something to the Publication on ServerA

Thank you,  
Samuel
