Thanks for the Help.

One more thing I want to ask ?

Where do i find Activex control to Synchronise data as mentioned in the article.

Best Regards

Sanjay

"SANJAY PAWAR" <sanju@xxxxxxxx> wrote in message <news:%23IG6Fv7AHHA.4024@xxxxxxxxxxxxxxxxxxxxxxxxxxxx>

i am facing problem in pulling subscription.

We have 15 branch offices all over the World.

Database replication through internet is must for our company.

Re: Problem in pulling subscription

My main Distributor and subscriber machine is same in India,Mumbai.
Local Network Name is (SERVER)
and Static IP is (xx.xxx.xxx.xxx)

When I Pull Subscription from other location it fails,
When I refer to the JOB History, It tries to connect to (SERVER) and not
static IP.

I do not know how to solve this problem. Where to make settings to look
for static IP for pulling subscription.

Pls help

Best Regards
Sanjay
