Hi,

I keep getting this error message sent to me periodically
(serverity 20 errors automatically forwarded to me):

Stored function 'xp_msadenabled' in the
library 'xp_star.dll' generated an access violation.

I seem to have isolated it to whenever someone right
clicks a database and selects properties.

Anybody have an idea on how I can get rid of this:

Platform specifics:

Microsoft SQL Server 2000 – 8.00.760 (Intel X86)
Dec 17 2002 14:22:05
Copyright (c) 1988–2003 Microsoft Corporation
Standard Edition on Windows NT 5.0 (Build 2195:
Service Pack 4)

Thanks,

Ned
