Dear All

I am trying to below script on BOX1

```
Declare @Sql varchar(8000)
Set @Sql = 'OSQL -SBOX2 -E -dmaster -q"Select 1"'
Exec master.dbo.xp_cmdshell @Sql
```

But it is Blowing with below error.

Login failed for user '(null)'. Reason: Not associated
with a trusted SQL
Server connection.

It used to work fine till y'day night but all of a sudden
things started blowing.

The i am running the script under SA rights and trying to
connect to another Box in different domain.

Please advise ASAP

Thanks in advance.
