One or more of below articles should help you understand issues with backup/restore:

Moving SQL Server Databases

<http://www.support.microsoft.com/?id=224071>

Moving Databases between Servers

<http://www.support.microsoft.com/?id=314546>

Using WITH MOVE in a Restore to a New Location with Detach/Attach

<http://support.microsoft.com/?id=221465>

How To Transfer Logins and Passwords Between SQL Servers

<http://www.support.microsoft.com/?id=246133>

Mapping Logins & SIDs after a Restore

<http://www.support.microsoft.com/?id=298897>

Utility to map users to the correct login

<http://www.dbmaint.com/SyncSqlLogins.asp>

How to Resolve Permission Issues When a Database Is Moved Between SQL Servers

<http://www.support.microsoft.com/?id=240872>

User Logon and/or Permission Errors After Restoring Dump

<http://www.support.microsoft.com/?id=168001>

Disaster Recovery Articles for SQL Server

<http://www.support.microsoft.com/?id=307775>
