Alan,

I exported:

HKEY\_CURRENT\_USER\Software\Microsoft\Microsoft SQL Server\80\Tools\QLEW\Registered Servers X

Deleted servers and imported that file. Everything was ok when I opened EM(individual servers appeared again).

Is it what you need to do?

By the way, have a look to this address:

HKEY\_USERS\S-1-5-21-1482476501-842925246-854245398-500\Software\Microsoft\Microsoft SQL Server\80\Tools\QLEW\Registered Servers X\SQL Server Group

Amin
