Thank you.

I will try the patch.

Hi Peter,

Thanks for using MSDN Managed Newsgroup Support.

From your description, my understanding of this issue is: Whenever you do a back up on your SBS server, you get a error message:

"MSDEWriter" has reported an error 0x800423f4. This is part of System State.

If I misunderstood your concern, please feel free to let me know.

Please try to apply this patch:

Update is available that fixes various Volume Shadow Copy Service issues in Windows Server 2003

<http://support.microsoft.com/?id=891957>

In the future, for all SBS-related issues, I would suggest posting in the newsgroup below:

microsoft.public.windows.server.sbs

The reason why we recommend posting appropriately is you will get the most qualified pool of respondents, and other partners who the newsgroups

RE: SBS Backup Failures after Installing SQL 2005

regularly can either share their knowledge or learn from your interaction with us. Thank you for your understanding.

Sincerely,

Wei Lu
