Hi,
Thanks for your response.

For further research, could you please send me the SQL Server setup log and MPSReport files?

Since the files are large, I would like to create a workspace for your uploading the files; however this process need your email address.

Could you please just send me (changliw_at_microsoft_dot_com) a response now? After that, I will email you to let you know how to upload the files.

You can download the MPSReport tool (MPSRPT_SQL.exe) from this link:

<http://www.microsoft.com/downloads/details.aspx?familyid=cebf3c7c-7ca5-408f-88b7-f9c79b7306c0>

Please feel free to let me know if you have any other questions or concerns.

Best regards,
Charles Wang

<http://msdn.microsoft.com/subscriptions/managednewsgroups/default.aspx#notifications>

If you are using Outlook Express, please make sure you clear the check box "Tools/Options/Read: Get 300 headers at a time" to see your reply promptly.

Note: The MSDN Managed Newsgroup support offering is for non-urgent issues where an initial response from the community or a Microsoft Support Engineer within 1 business day is acceptable. Please note that each follow up response may take approximately 2 business days as the support professional working with you may need further investigation to reach the most efficient resolution. The offering is not appropriate for situations that require urgent, real-time or phone-based interactions or complex project analysis and dump analysis issues. Issues of this nature are best

Re: Cannot upgrade a licensed sql2000 to a MSDN 2005

handled working with a dedicated Microsoft Support Engineer by contacting Microsoft Customer Support Services (CSS) at <http://msdn.microsoft.com/subscriptions/support/default.aspx>.
