abcd said the following on 5/8/2007 5:43 PM:

I have below code

Start over.

```
=====

<html>
<span style="width: 250; padding-left:0px; padding-right:5px; padding-top:0px;
padding-bottom:5px">
<div align=center><font face="Trebuchet MS" size="2"><b>AAA</b></font><br><img
src ="/Yellow.png" height=4 width=186 border=0></div></a></span>

<span style="width: 250; padding-left:0px; padding-right:5px; padding-top:0px;
padding-bottom:5px">
<div align=center><font face="Trebuchet MS" size="2"><b>BBB</b></font><br><img src
="/Red.png" height=4 width=186 border=0></div></a></span>

<span style="width: 250; padding-left:0px; padding-right:5px; padding-top:0px;
padding-bottom:5px">
<div align=center><font face="Trebuchet MS" size="2"><b>CCC</b></font><br><img src
="/Red.png" height=4 width=186 border=0></div></a></span>
</html>

=====
```

In IE it renders like 3 images in one row where as in Firefox it renders 3 images in 3 separate lines....

Firefox gets it right, IE gets it wrong. DIV elements can not be child elements of a SPAN as the DIV is a block level element while the SPAN is an inline element.

## Re: Div rendering

What changes do I need to make it so that Firefox also shows me these 3 images in one row....

Producing valid HTML would be a start.

I will be having many such thumbnail images on my page and I want the browser to adjust the rows and columns automatically...IE does it for me automatically but firefox not....Is the HTML syntax correct...

No. <http://validator.w3.org/> and paste your HTML in the textarea. It will generate roughly
